

Utica, N.Y. May 10/56.

Dear Doctor. I omitted to state in
my letter that I have noticed a
similarity of that White Violet to
Viola rotundifolia. Can it be a white
flowered form of that species? If there
is any thing in the line of living or
dried specimens desired for Cambridge from
my region remember I am always ready to
supply them. I may have some to send in the
autumn.

Yours sincerely Dr. Haberst.

Prof. Asa Gray, M.D.
Cambridge.
Mass.

Nothing but the address to be on this side.
